2. (Unclassified - RJW) LEGISLATION Called the House Government Operations Subcommittee on Government Information and Individual Rights to check on the status of H.R. 10998, the House version of a "Presidential Papers" bill. I was informed that nothing is scheduled with regard to the bill.

I was informed that the Subcommittee has three days of mark-up scheduled (26 April and 1-2 May) on a foreign relations authorization, and it is likely that H.R. 11383 will be considered therein along with H.R. 11326, a bill to establish an Institute for Human Rights and Freedom, and H.R. 11548, a bill to establish a national policy for the application of science and technology to United States foreign policy.

11. (Unclassified - MMP) LIAISON Called Joe DiGeorgio, GAO, to provide him with the follow-up to our meeting on 17 April (See Journal item for 17 April). I told Mr. DiGeorgio that there are intelligence reports that his team members will be shown in the various stations they are visiting. Some of these reports are so sensitive that the team members may only be briefed orally on them and that these reports will definitely not be forwarded to the GAO regional base for subsequent analyzing. I told Mr. DiGeorgio that each individual report would have to be analyzed on an individual basis and individual judgments would have to be made on each one. He asked whether decisions had been made on the [redacted] intelligence reports that his team had requested, and I told 25X1 him that they had not yet been decided upon and hoped to have an answer early next week. Mr. DiGeorgio said that he was less concerned with being given access to reports than not knowing what the ground rules would be. I told him I would make every effort to get ground rules firmly established as early as possible. In response to his request that we inform other agencies located in the countries to be visited that they are free to make available our reports on terrorism, I told Mr. DiGeorgio that under no circumstances could or would we issue that kind of blanket direction with regard to our reports.

12. (Unclassified - MMP) LIAISON Called Thomas K. Latimer, Staff Director, House Permanent Select Committee on Intelligence, and made an urgent request that the Committee obtain the transcript from the 20 April Subcommittee on Oversight, chaired by Representative Les Aspin (D., Wis.) hearing. I said that today's article in the Washington Post on what the Director said with regard to [redacted]

[redacted] and that we are anxious to rebut the interpretation provided in the Post. After several phone calls and considerable effort on the part of the Committee the portion of the transcript relating [redacted] was obtained and I picked the transcript up at 3:30 and forwarded a copy to all interested components. 25X1

13. [redacted] (MMP) LIAISON Saw Dick Giza, House Permanent Select Committee on Intelligence staff, who requested any information we 25X1 might have on the University of Columbia's Freedom of Information Act request on mind control cited in the Washington Post on 20 April. What Dick wanted to know was whether the Agency has or had contracts with Columbia University to develop information on parapsychology and whatever it might have been that Columbia University did with regard to parapsychology for CIA. I said I would look into it and get back to him.

16. (Unclassified - THW) LIAISON Bob Blakey, Chief Counsel, House Select Committee on Assassinations, called and said he felt the restrictions we had placed on the Committee's access to raw documents was unworkable. I told him that I felt the restrictions were necessary to maintain the physical control over the documents. He said that he thought we should discuss the matter in person and we decided that we would meet at 9:00 a.m. on 22 April to go over the full range of security problems arising out of Committee business.
